What is the APEG Member Insurance Program?

Available exclusively to members of the APEGBC, this is a special group insurance program which offers you superior coverage at reduced rates.

Launched in 1989 as a simple home insurance program, it has now expanded to offer coverage in the following areas:

HomePlan - The original home insurance product (also available for condos and tenants), is an outstanding policy which includes many special coverages and enhanced limits at no extra charge.

AutoPlus - Private auto insurance that provides you with better coverage at a lower price. It adds to your savings by giving you an additional 10% "multi-policy" discount on your home insurance.

HomeWork - Provides coverage for your home-based business, including off-premises equipment and liability protection.

Umbrella Liability - Combines and increases the liability limits and coverages offered by your home and auto policies at a low cost.

The program is sold and serviced by Park Insurance, a Vancouver-based insurance broker and underwritten by the Lombard General Insurance Company of Canada, one of the country's largest insurance companies.

Why is it better than my current insurance?

The APEG Member Insurance program offers you some distinct advantages over typical insurance products:

Low group rates - Because of the large numbers and professional demographic of APEG members, the insurer chooses to offer lower rates and enhanced coverage.

The power of numbers - With over 6100 active policies in the program accounting for over 4.25 million in annual premiums, members who participate in the program become part of a powerful force that insures ongoing quality and service. Both Park Insurance and Lombard Insurance have a strong financial interest in keeping members satisfied. Do you wield that kind of power with your current insurer?

Association backing - The program has the full support and backing of the Association. In fact, all written complaints are submitted to the APEG and followed through to resolution.

Proven track record - The APEG Member Insurance Program has proven itself by living up to its promise to thousands of your colleagues for 18 years.

Can your current insurance company offer you all these advantages?

How can I be sure that it's the right insurance for me?

You could look at the long, successful history of the program.

You could look to the thousands of satisfied members who have benefited from the program and continue to renew their policies year after year.

You could believe the results of the continuing surveys performed by Park Insurance which show satisfaction levels well over 90%.

But by far the best way to find out is to contact Park Insurance and let them go to work for you.

You'll quickly discover that you're dealing with a company that cares about you.

You'll speak with a licensed insurance broker who is willing to answer your questions and make sure you understand your options. They'll take you through the application process and ask you for the information they need to prepare a quote for you.

Once the quote is ready, they will fax it to you and answer any further questions you may have.

And remember, throughout this process, there is absolutely no obligation on your part.

By the time you reach this stage, chances are you'll be quite confident that the APEG Member Insurance Program is very definitely the right insurance for your needs.
